

JOHN PAUL

Full-Stack & Mobile Software Developer

sagegrid.org sagegrid9418@gmail.com github.com/sagegrid9418 Worldwide (Remote)

PROFESSIONAL SUMMARY

Full-Stack & Mobile Software Developer with hands-on experience building web, mobile, and business applications from scratch. Skilled in Laravel, PHP, React.js, Node.js, React Native, Flutter, JavaScript, TypeScript, MySQL, MariaDB, MongoDB, REST APIs, Socket.IO, and responsive UI development. Experienced in integrating third-party APIs and payment gateways, developing production-ready application functionality, debugging complex technical issues, and independently researching and implementing unfamiliar technologies.

TECHNICAL SKILLS & CAPABILITIES

Languages: JavaScript (ES6+), TypeScript, PHP, Dart, Kotlin, Swift

Frontend: React.js, Tailwind CSS, Bootstrap, Vite, Responsive Web Development

Backend & APIs: PHP, Laravel, Node.js, Express.js, RESTful APIs, Socket.IO

Mobile: React Native, Flutter, Kotlin, Swift, Android, iOS

Databases: MySQL, MariaDB, MongoDB, Database Design

Tools & Dev: Git, GitHub, Postman, VS Code, Android Studio, Xcode, Gradle

Payments & Integrations: Flutterwave, Paystack, NOWPayments, Third-Party API Integration

Core Strengths: Problem Solving, Debugging, Clean Code, Responsive UI Development

PROFESSIONAL EXPERIENCE

Independent Software Developer

-

Freelance Development Services

2018 - Present

- Build tailored web applications, mobile applications, business platforms, and API integrations for clients.
- Develop application functionality using Laravel, PHP, JavaScript, React.js, Node.js, and related technologies.
- Integrate third-party APIs and payment gateways into business and transaction workflows.
- Diagnose and resolve layout bugs, broken functionality, deployment problems, database issues, and performance bottlenecks.
- Research technical documentation and independently implement unfamiliar technologies to solve development requirements.

SELECTED PROJECTS

Law Firm Management & Client Platform

[Live Demo](#)

Laravel, PHP, JavaScript, MySQL, REST APIs, Bootstrap CSS, Tailwind CSS, Payment Gateways

- Developed a professional platform featuring client-facing services, invoice/quotation functionality, and online transaction workflows.
- Integrated Flutterwave, Paystack, and NOWPayments to support multiple payment methods.
- Built responsive interfaces and structured backend functionality for managing business and client transactions.

Celebrity Fan & Entertainment Platform

[Live Demo](#)

Laravel, PHP, JavaScript, MySQL, REST APIs, Bootstrap CSS, Tailwind CSS, Payment Gateways

- Built a full-featured platform where fans can join memberships, shop for products, book events, and purchase tickets.
- Unified commerce, event booking, ticketing, and responsive content management in a single robust architecture.

E-Commerce Application & Checkout System

[Live Demo](#)

Laravel, PHP, JavaScript, MySQL, REST APIs, Bootstrap CSS, Tailwind CSS, Payment Gateways

- Developed a web store featuring product filtering, stateful shopping-cart management, API communication, and checkout.
- Structured the application with modular components to ensure long-term maintainability and performance.

SAGE GRID Personal Technology Platform

[Live Demo](#)

Laravel, PHP, JavaScript, MySQL, REST APIs, Bootstrap CSS, Tailwind CSS, Payment Gateways

- Designed and developed SAGE GRID as a professional technology platform and portfolio showcasing software capabilities.

PROFESSIONAL DEVELOPMENT

Self-Directed Software Engineering

Developed practical software engineering proficiency through continuous project building, source-code analysis, technical documentation, debugging, and independent research. Proven ability to rapidly research and implement new technologies directly into functional projects.
